The Greatest Rifle Matches Ever Held.

(Continued from August 21st.)

A CONTINUATION OF THE COMPLETE STORY OF THE CAMP PERRY SHOOTING.

MONDAY morning, August 18, with its program of the second stage of the Governor's Match; the Enlisted Men's Team Match, and the Surprise Fire Match, to say nothing of the Running Deer and other re-entry matches and general preparatory practice and all ranges, was ushered in with the pop-plop of shots all up and down the line. The temperature was still high, but a wind from the 12 o'clock made the heat more bearable, though it played unheavenly havoc with many a fond plan to put on possibles in the 1,000-yard stage of the Governor's. Fish tails are poor food for folks and not beneficial to bull's-eye getting. Not a few contestants who breezed up to the 1,000 with high hopes fish-tailed away with low scores. Meantime, from early dawn to dewy eve that inoffensive, and to us in this form quite new, running deer did so much running that had it been upon a straight-away progress clear across a State, it could hardly have compassed its movement. Talk of running, has any one told you about a skirmisher, from a strong shooting Middle-West team—might as well say right here that it was Minnesota—who appealed to Captain Morton C. Mumma, the highly efficient statistical officer of this and many other National Matches. Some one overheard this appeal, and its form was this: "Captain, I want another run in the Governor's Match."

"What was the trouble, Shootson? Disabled gun or faulty target?"

"Nothing the matter with the gun or the target, Captain; the matter was, I didn't hit the target enough and I would like to run it over."

Looking severely official as he can when need arises, Mumma replied: "Sorry, but it can't be done; we are just out of run-over cards."

The Running was a star attraction Monday, but other days' other notions. Tuesday, when the wind blew considerably more than a little bit, the deer and his tired keepers basked comfortably, restfully, unpursued and undisturbed.

General Elliott, the Adjutant General of West Virginia, and captain of his State team, has a system of instruction in practice which involves shooting with his men in practically all of their preparatory firing. Some other team captains follow a similar course, and are thus able to check at first hand all results of range instruction.

General Finzer, the Adjutant General of Oregon, doesn't shoot with his team, but his well-recognized skill as a leader permits him to find and determine the quality of his men just as surely as though he were a shooting member. At that, he is a good shot and an exceptionally fine officer. It is pleasant to know that an automobile accident which broke two ribs for him just prior to his departure for Perry has not materially impaired his health or lessened his activities.

Another Western Adjutant General who captains his team and impresses all with his soldierly qualities is General Phil. Grennan, the Adjutant General of Montana. General Grennan has been recently reappointed by the Governor of his State, in well-deserved recognition of his fitness.

A Southern Adjutant General here with his team of fine shots is Gen. J. Van Holt Nash, the Adjutant General of Georgia. General Nash is now at Camp Perry, but well and favorably known in military and rifle practice circles.

MONDAY'S SHOOTING.

The second stage of the Governor's Match was first order on the program for Monday, August 18. The first stage, consisting of the skirmish and 600-yard stages, was shot on Saturday. At the end of this preliminary bout, Lieut. H. Hawley, U. S. Infantry, stood top, with a skirmish of 99 and a 600-yard score of 49. Sergeant C. R. Robinson, U. S. Cavalry, came next with 97 and 49, and third position was held by Private E. L. Clark, Marine Corps, who scored 99 and 46.

The first fifty entitled to enter the second stage without re-entry had for the largest score 90 and 48. Seventy-one competitors re-entered, and the hot pace set at the beginning continued through this final stage of the contest, namely, 200-yard surprise and 1,000. Lieut. Hawley held his lead and, by virtue of 50 Surprise Fire and 46 at 1,000, rounded off his clear-cut victory with a total of 244. Major P. A. Wolf, U. S. Infantry, came up with a rush from tenth place at the close of the first stage and, scoring 50 Surprise and 48 at the 1,000, took second with 241. Sergeant Robinson was crowded down from second to third, which he took over Sergeant A. G. Schmidt, of District of Columbia, on a tie score. Clark, of the Marines, was fifth, one point behind the man above him. There were 272 entries in 1911 in this match and 485 this year. The scores cannot be compared, because the ranges are different.

THE ADJUTANT GENERAL'S CUP.

This fine match reproduces Wimbledon Cup conditions—that is, 20 at 1,000, any rifle, any number scopes allowed.

The conditions were very good in this match, but not so easy as to make it anything less than a real contest. Lieut.-Col. C. B. Winder, so often denied the Wimbledon on ties, could not be headed by any of the fine field of 438 crack shots who tried for the high honor of first position in this hotly contested event. His 100, with 4 bulls for good measure, is record for the match. No other contestant scored a possible, and the veteran Ohioan might as well have saved his four extra bulls for some other race. Lieut. R. C. Gippen, Navy, landed second with 99, and 2d Lieut. Elting, Cavalry, took third with an outranked equal score. There were nine 98's, the score which won in 1911.

ENLISTED MEN'S TEAM MATCH.

The enlisted men of the U. S. Marine Corps raised the money by voluntary subscriptions among themselves to purchase a beautiful trophy emblematic of victory in this strenuous combat. The conditions provide for teams of six men from the Infantry, Cavalry, Navy, Marine Corps or National Guard of any State. Under average Perry conditions, the 34 contesting teams made a good start and a grand finish.

At the end of the 600-yard firing 290 was high and Cavalry had it. Oregon Team No. 2 made best score at 1,000, 282, but the Cavalry 281 here, with the 600 total, gave the horse soldiers of the Army a grand total of 565 and the match. Massachusetts was second; Marine Corps third, and Maryland fourth.

Those who shot on the winning team and their scores were:

| | 600 | 1,000 | Tl. |
|--|-----|-------|-----|
| Feiss, Albert, 1st Sgt., Tp. M., 3d Cav..... | 50 | 46 | 96 |
| Haggerty, Chas., 1st Sgt., Tp. F., 12th Cav..... | 47 | 44 | 91 |
| Sampson, E. E., Sgt., Tp. A., 3d Cav..... | 48 | 48 | 96 |
| Crown, J. R., Sgt., Tp. H., 1st Cav..... | 49 | 47 | 96 |
| Thomas, J. M., Corp., Tp. G., 3d Cav..... | 47 | 47 | 94 |
| Robinson, C. R., Corp., Tp. A., 15th Cav..... | 49 | 49 | 98 |
| Team totals..... | 290 | 281 | 571 |

A score of 552, made by the Navy, won in 1911. Again we see a record-breaker.

SURPRISE FIRE MATCH.

Second Lieut. R. Sears, U. S. Infantry, did the surprising in this combination of fall and shoot, but not without some vigorous competition, you may be sure. He had to run a full score of 50, and then two additional half strings of 25 each, before he beat off Private J. F. Loughlin, Massachusetts, who ran 15 straight hits before going out of

MR. JOHN W. HESSIAN.
Winner of Marine Corps Match.

the block. There were 15 possibles and so many 49's that one grew tired reading them. For these and all other detailed scores, readers are referred to other pages of this paper, where they may be found in full and complete form.

DIVERTING INCIDENTS ARE KNOWN.

A well-known veteran shot, so it is said, went from 800 to 900 a match or so ago and carefully reduced his elevations 7 degrees, the amount he should have increased them. He did not get a perfect score, but he might have done so had he stood on his head.

And of possibles, so they say, the neatest yet known at Perry was accomplished at the Club instead of on the range, and the manner of it was this. An officer, sitting upon the veranda with a woman friend, had his attention directed to one of the fair visitors to the camp by his companion, who exclaimed: "Look! Look! Did you see that officer kiss the lady in white?" "Probably his wife," replied the man. "No indeed," answered she. "I know her, and she isn't; besides, that's the second man I have seen kiss her good night this evening." "Another possible," ventured he. "Introduce me, won't you?" "Why trouble," was his reward, "aint I here?" Startled into truth, he responded: "Oh, that would be the most perfect possible." This might have happened—who knows.

MULLING OVER MEXICO.

Of course, the Mexican situation, as it develops from day to day, is continuously a live topic here. Truly, what may be or may not be done depends upon whether the Mexican Government permits its people to Huerta'n American and as to what the *pro tempore* ruler of the southern country pronounces in his latest pronouncement, is not a debatable question. In the words of General Guessaz—they have down there a more stable government than we, or at least they should have, because there are more jackasses in it.

Seriously, a great many of us are growing just a tiny, wee bit peeved with the way the situation shapes, or seems not to shape, and we would like to see Huerta shoot or lay down the gun. President Wilson seems to have the right idea, but there are not lacking those who feel the President carries a weight in some of the agencies he has employed.

TUESDAY'S TIDINGS OF THE TARGETS.

This day saw three matches up for disposal. The Championship

Company Team Match, for four men from an organization, developed as pretty a small fight as any could wish. The team which won did consistent high scoring by leading at both ranges. Surprise fire and 600-yard shooting composed the schedule. One hundred and eighty-eight at the first and 192 at the latter is good traveling, and the men of Company A, 1st West Virginia Infantry, were entitled to what they got—that is, first place by a margin of 14 points over the team of Company C, 1st Corps Cadets, Massachusetts. Company K, District of Columbia, was third. The names of the West Virginia men are: Lieut. J. C. Berry and Sergeants T. S. Brown, L. H. Jones and E. H. Skidmore. The 600-yard score was especially good because the day, which had begun with a 16 to 18 mile wind, brought with its latest hours a stiff wind that was almost a gale. It was not a tricky wind, but it was of high velocity, and its intensity varied. In 1911 Company L, 1st West Virginia, won, so the honor has been kept in the family.

MARINE CORPS MATCH.

Twenty shots at 600 and the same at 1,000 offer a grand chance for something to go right and more to go wrong. Likewise, it is a hard-gruelling, punishing setto, but it's a "bully" match. Three hundred and fifty-one men shot in it in 1911 and 599 this year. The morning wind was strong, the afternoon one stronger, but both were reasonably steady. Seven points of sight were noted before the match's end. The winner was John W. Hessian, well known in the shooting world, but not of any military organization. He won by virtue of good work at the 1,000, where his score of 98 was only equalled by one other competitor, Corporal E. A. Lang, 10th Pennsylvania. Hessian's long range scores were 97 and 98, and his total of 195 was equalled by Corporal C. B. Loring, Marine Corps, who made 100 and 95. Long, previously mentioned, totaled 193, as did Sergeant F. H. Kean, 5th Massachusetts. Corporal J. E. Snow, Marine Corps, was the only 192 made, while Ensign W. A. Lee, Navy, who gained the unique distinction of winning the National Individual Rifle Match and the National Pistol Match in one year (1907), was first of several 191's. The winner's score equalled that made in 1911 by Lieut. H. E. Simon, Ohio, 195, composed of a 96 and a 99. Curiously enough, the weather conditions of this year almost exactly reproduced those of 1911, when there was also a high wind at the 1,000.

THE MEMBERS' MATCH.

This is a 600-yard, 10-shot match for members of the U. R. A. Capt. W. Dabney, U. S. Infantry, was first with a full score and one bull over, a score tied by Capt. W. T. Spratt, 5th Georgia. These were the only 50's, but there were many 49's and 48's, and only one of the 74 prize winners made a 3. In other words, out of the 740 record shots fired by those who finished in the prize money only one went outside of the 4 ring, and then but to the 3 space, while a majority of the shots were bulls.

During the day the high wind backed up the lake until it caused a small flood back of the 600-yard bulls, but range officers ingeniously built a levee and stayed the rush of water.

WHAT MIGHT HAVE HAPPENED.

Lieut.-Col. D. Antonio Gerken, Argentine Army, was a visitor at camp to-day, as was also E. A. W. Everett, of the operating department of the Hercules Powder Company. Colonel Gerken was greatly interested in the work of his countrymen upon the range, and all he saw. Lieutenant Hornsby Evans, Army, was detailed as his special aide.

THE LEECH CUP.

That old and time-honored match, the Leech, opened with Wednesday morning. The conditions were favorable, and high scoring resulted. G. W. Chesley, of New Haven, Conn., not a member at this time of any military organization, but entered from the Winchester Rod and Gun Club, took first place from a class field of 517. Only 231 men fired in 1911. Chesley's full score of 7 bulls at each range, with 13 extra bulls at the 1,000, was a most creditable performance. Almost as good was the work of Capt. W. T. Spratt, 5th Georgia, who ran full scores and 6 bulls over. The winners of third and fourth places tied with a complete complement of bulls; they were 1st Sergeant C. H. White, 3rd Oregon, and Sergeant C. R. Robinson, 15th U. S. Cavalry. There were six 104's.

REGIMENTAL CHAMPIONSHIP.

At the close of this rattling good fight the team of the 5th Massachusetts Infantry stood top with the genuinely fine record score of 832. The 53rd Iowa had second, 829, followed by the 6th Massachusetts with 809. The 1911 winning score was 808, made by the 2nd Texas. The 5th Massachusetts team, which won, was composed of Sergeants Frank H. Kean, Cedric B. Long, Jos. T. Lawless, F. J. Cunningham and 1st Sergeant P. S. Schofield and Q. M. Sergeant Jno. C. S. raker. Their range totals were: 200 slow, 261; 600, 294; 1,000, 277. Mighty good going that, as all must admit.

THE BEGINNING BUT NOT THE END OF THE PRESIDENT'S.

The President's Match and the Evans Skirmish Match, the latter for a trophy presented by Brig.-Gen. R. K. Evans, executive officer, were next on the schedule. All went well with the President's in the morning at the Skirmish and 600-yard stages practically completed, but Surprise fire was interrupted at 1:45 by a fierce windstorm with heavy rain, which came up quickly from the west and sent all officials and competitors scurrying for shelter. Capt. W. H. Clopton, Jr., Cavalry, was high man when firing stopped. The rain continued during most of the afternoon, rendering further range work impossible. The halt in active operations gave Captain Mumma and his force of hard-working statistical officers and men a chance, the first one, to take a long breath. The amount of detail labor involved is enormous, especially as the program is a full one and the number of competitors so great. All firing in these two matches was put over until Friday morning.

Major Chaplain Thos. J. Dickson, 6th Field Artillery, Horse, chaplain of the camp, presented some of the stirring action photographs of military scenes on Thursday evening. These pictures were greatly appreciated by a representative audience.

There were threats of rain Friday morning, but, fortunately, unfulfilled ones; but just as a great machine may be put out of action and stand dumb and useless by the obtrusion of a foreign object in its intimate mechanism, so the rain of Thursday set jangling all the well-oiled and perfectly adjusted program for this meeting. Readjustment was necessary, that the full course of the week's shooting should be consummated, and every effort was exerted by the executive officer and his able staff to do this, but the perfect clock-like regularity was irretrievably lost. Even so, events moved not too ill.

THE HERRICK TROPHY MATCH.

The Herrick Trophy Match was one to wait for. This event is shot under Palma conditions, except that any rifle may be used, while the Palma calls for the straight military. Massachusetts Team No. 1 led at 800; Iowa, second, one point behind; Navy in third position. At 900 yards Iowa forged to the front, its 581 being high there, while Massachusetts drew 570. Navy only put 559 here and was out of it. Iowa made a runaway of it, banging up 559 for the 1,000, or 1,727 as a match total. The team used the service rifle with 'scopes. Massachusetts was second, or 1,702. The members of the winning Iowa Team were: Major I. Ellwood, Capt. H. G. Utley, 2d Lieut. D. Proussner, Capt. F. S. Hird, Sergeant J. W. Varner, 1st Sergeant W. A. Durchdenwa, 2d Lieut. C. Barnes and 1st Sergeant C. M. King. Cavalry Teams Nos. 1 and 2 came third and fourth. But it remained for the Usterwasers to shine, by rolling up a team total of 1,726. Shooting with service rifles, straight without scopes, this meant Palma conditions, and the score beats the previous best Palma score of 1,720. Among those firing were the Argentinos and Peruvians, although they did not enter for prizes but only for practice. In considering their scores it

must be remembered that they fired with Mauser rifles, using it is true, peep sights and American ammunition. Also, they are unaccustomed to shooting at the long ranges. In spite of these difficulties, the Argentinos had a score of 1,662, which would have placed them twelfth had they fired for a prize, and, if you count two bulls made by these men upon wrong targets, in eighth place. In such fast company this was a most creditable showing.

The Peruvian score does not indicate their quality, because not all of the men of that team shot all their way through. They also did well, under the circumstances. The Argentino score was almost 100 points better than that made by England in the Palma of 1907.

Two men, shooting in the Herrick, broke the world's record of 222 for Palma distances and conditions made by Sergeant Russell, of Canada, in 1912. These two were Captain S. W. Wise, Massachusetts, and Lieut. L. W. T. Waller, Jr., Marine Corps. Each made a total of 223, Wise going out for a 3 for his third record shot at the 1,000, and Waller on his last shot at the same range, after each had gone straight for 15 shots at 800 and 900. Under good conditions, there will be some shooting done when the 1913 Palma is shot.

1st. COLORADO REVOLVER TEAM.
Winner of Championship Revolver Team Match.

FINISH OF THE PRESIDENT'S MATCH.

The last stage of the President's, this year 15 shots at the 1,000 confirmed Captain W. H. Clopton, Jr., Cavalry, as the justified leader in this big match. His 72 at the longest range was only beaten by the fine 73 of Capt. F. W. Allen, Massachusetts, while but one other contestant equaled it; Winder. Captain Clopton's full total of 266, by which he became the winner, was 6 points above that of Sergt. C. B. Long, Massachusetts, second. Chesley came third with 259, a score tied by Capt. M. G. Seeley, Arizona. By taking first place in the President's, Clopton not only secures the coveted honor of a letter from the President, but also the Marine Corps Cup, presented by the 1910 Marine Corps Team to the high cavalryman in this event. It was a good, clear-cut victory for Captain Clopton, and well deserved. In the rapid fire stage the cavalry officer shot under extreme pressure. He was high man, and unfortunately the strong wind and other causes made many delays during the delivery of his string. He lost not an iota of his nerve, getting 48, but acknowledged after it was over that no score he had ever shot had been more trying.

INTER-CLUB MATCH.

The Bucyrus Rifle Association (Ohio) won the Inter-club under difficulties and against odds. Without rifles, its members borrowed

CAVALRY TEAM
Winner of Enlisted Men's Team Match

Springfields in camp and put on a fine team total of 278 and defeated by two points the strong team of the Engineers' Rifle and Revolver Club. The winning aggregation was composed of C. P. Mader, J. W. Miller, I. W. Croneis, and M. S. Beal.

CHAMPIONSHIP REVOLVER TEAM MATCH.

What this match lacked in entries was more than made up in the quality of the shooting. There were but three competitors, the 1st Squadron Cavalry, Colorado; 1st Cavalry, New York, and the 1st Cavalry, Illinois. Having won the match in 1909, 1910 and 1911, the Colorado team was looked upon as a factor always dangerous. All three teams, however, were composed of men of considerable reputation as pistol pointers.

The first relay stepped to the firing point at 2 o'clock Saturday afternoon. A puffy wind bothered somewhat, but the light was good. Smith, McCutcheon and Coffin, of the Colorados, got away to a flying start and were never headed while big, husky Poindexter, as team anchor, held down the job.

When the deliberate fire stage, consisting of 15 shots at 50 yards for each man on Standard American Target, had been shot, Colorado was in the lead, over the 1st Illinois, with 26 points, and 65 ahead of the New Yorkers.

The rapid fire stunt, three strings of 5 shots at 50 yards, 8 seconds per string, always produces unexpected results, as the score will show. Poindexter's Pistol Pointers from Pike's Peak put across a pretty 385 total, which copped the Silver Trophy presented by Robert Hale, of Boston.

Captain Sayre, of the New York team, is authority for the statement that the Colorado total of 1,007 is a new world's record, exceeding the best previous, of 985, made by Squadron A of New York.

Ninety-one points separated New York and Colorado at the finish, the Illinois team bringing up in the rear with 868.

High individual score for the match was made by Cook C. M. McCutcheon, of Colorado.

SOME SHY SHOOTERS.

The task of getting photographs of the various winners has been multiplied by the disinclination of many of the contestants to let the camera man take a snap at them. When a picture of an individual has been secured, the process has often to be one of stealth. Lacking illustrations must be charged to the men themselves and not to ARMS AND THE MAN.

UNTOWARD EVENTS.

The first death to occur in a National match rifle camp was that of Lieut. John D. Herd, Company I, 2d Kentucky, who arrived in camp with walking typhoid, and whose death occurred Wednesday night. The grim reaper also visited the family of Lieut. Albert S. Jones during the week. His brother died suddenly Thursday and Lieutenant Jones left camp Thursday night to attend the funeral. He will return as soon as possible.

THE FOREIGN TEAMS.

Lieut. Col. Wm. Libbey left camp Friday night to assist in the re-

ception at New York of the Swedish, French and Swiss teams. He will accompany them to Perry, and should arrive about Friday.

Next came the National Matches and the Palma Try-out. They will be dealt with in ARMS AND THE MAN of next week.

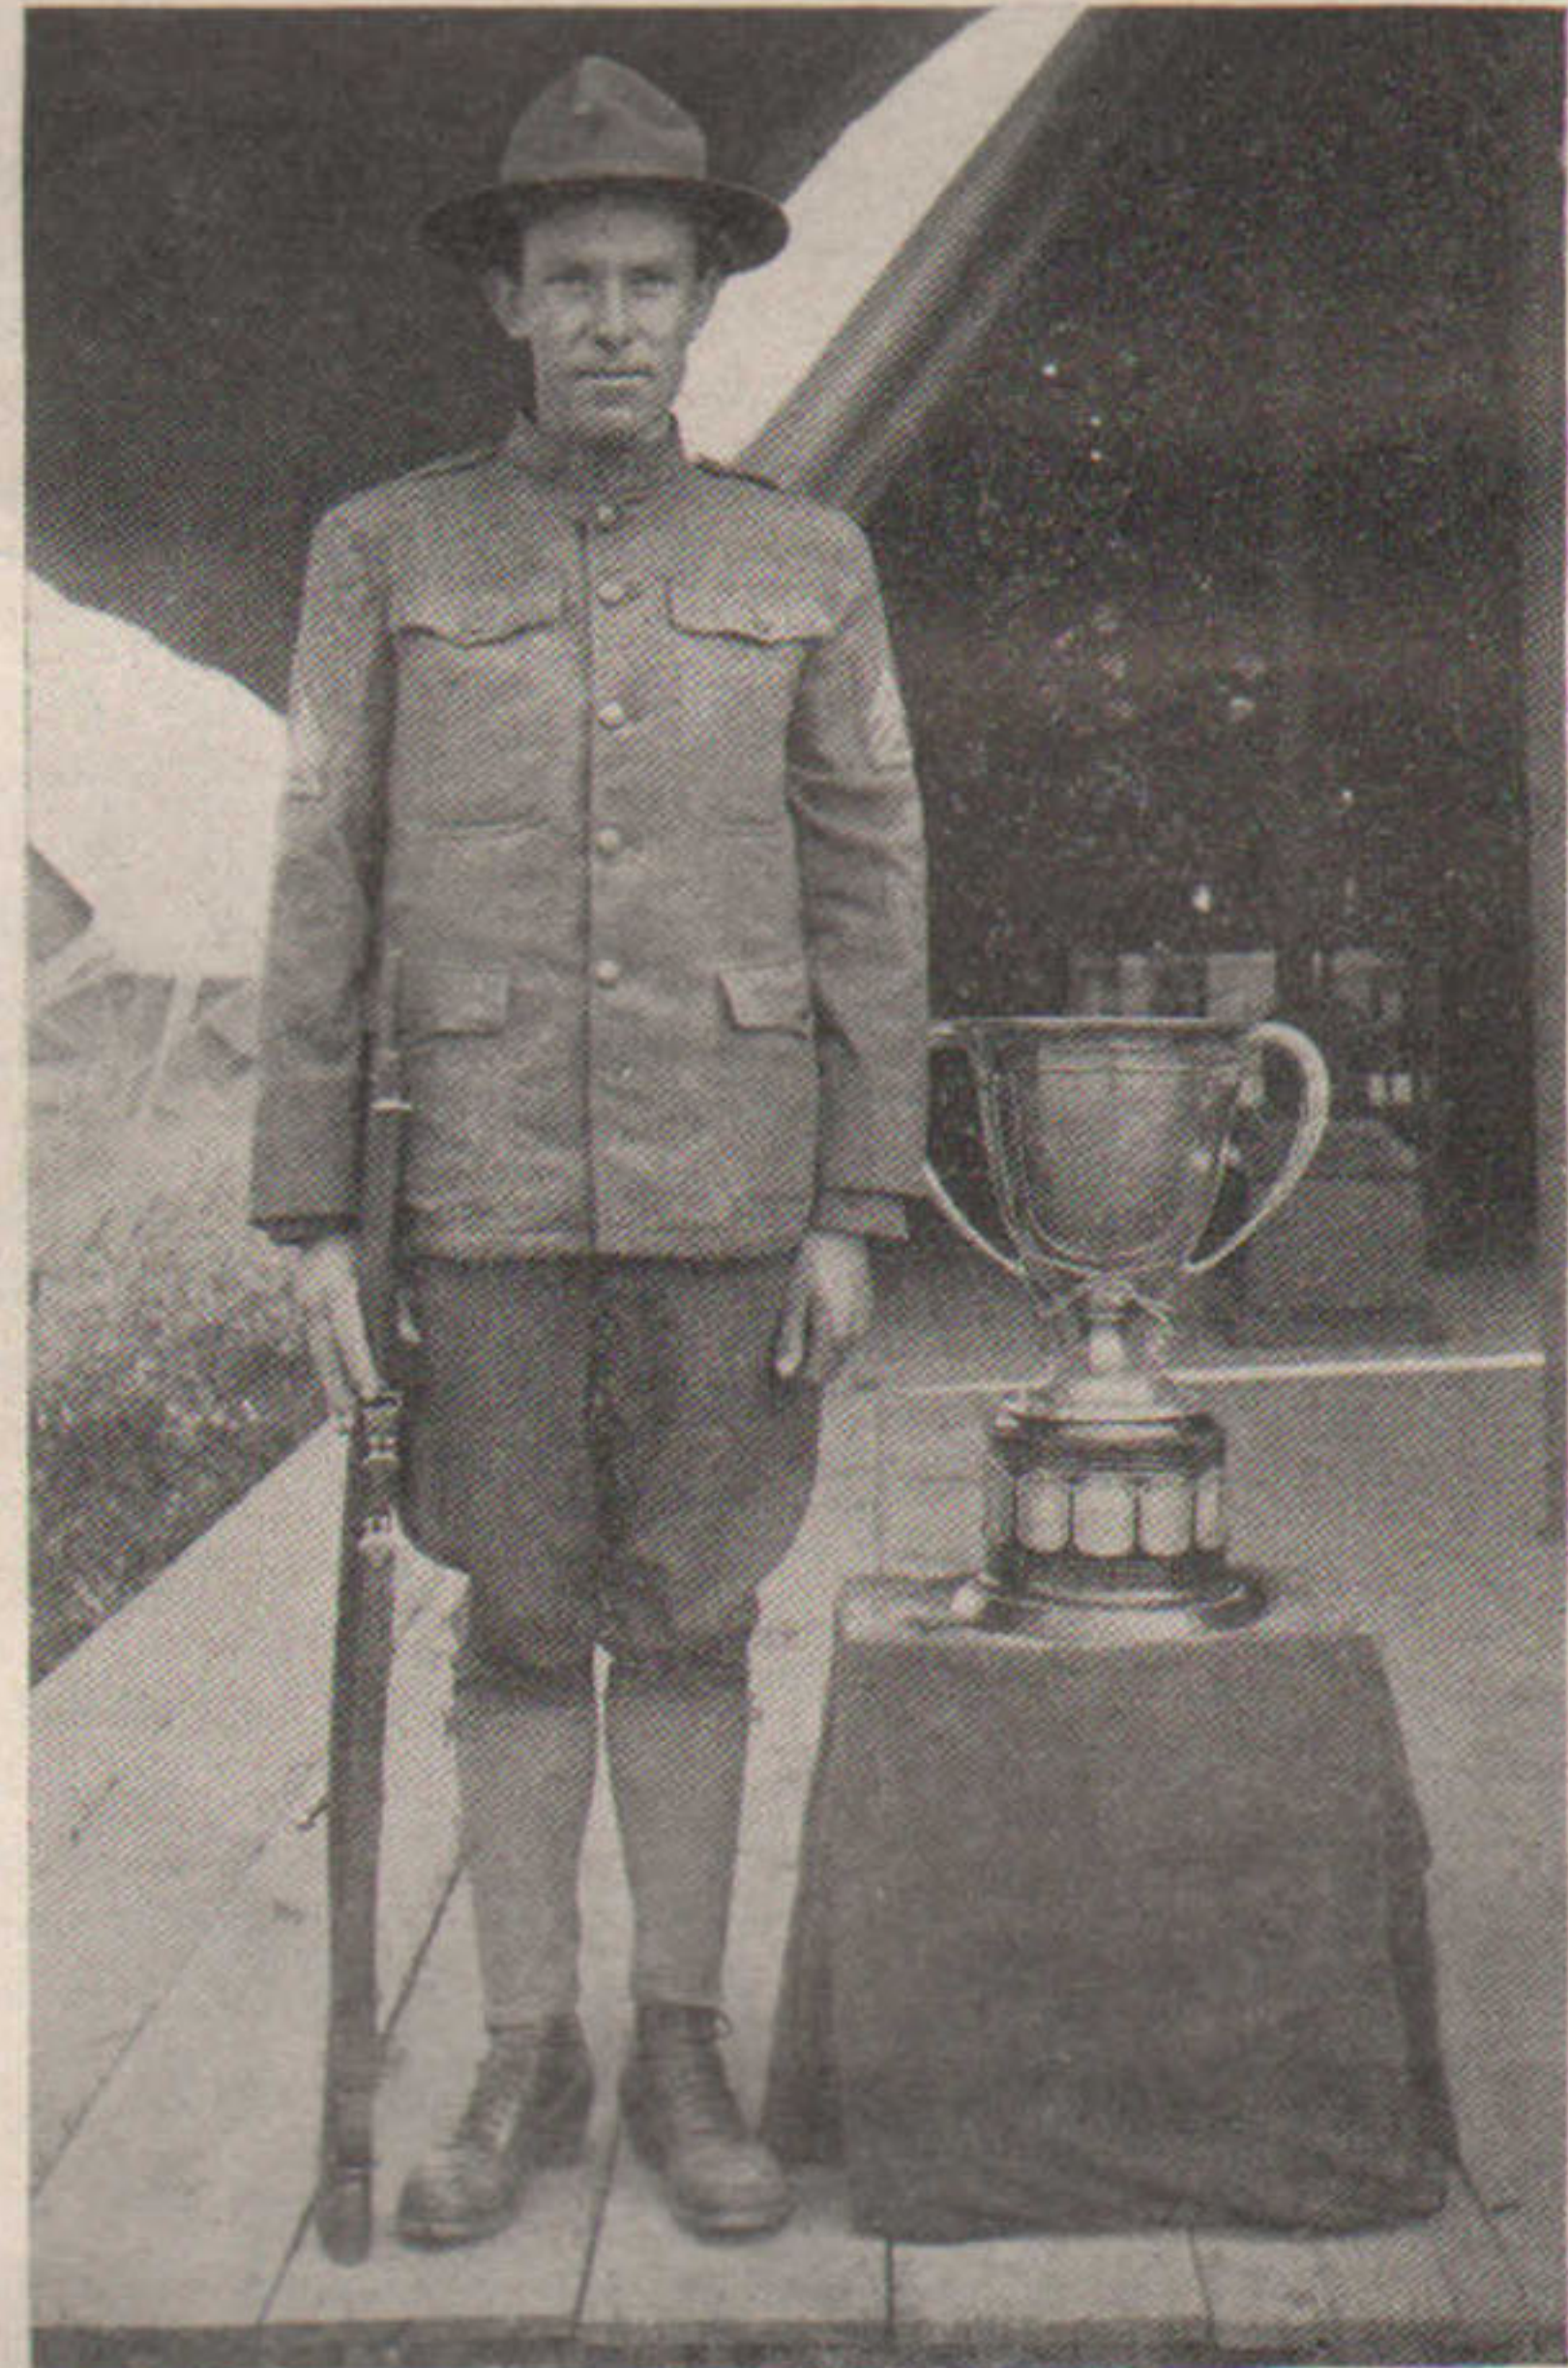

THE EVANS SKIRMISH MATCH.

This stirring contest, instituted by Gen. R. K. Evans, our executive officer, who now is serving his sixth tour in this capacity, endeavors to simulate service firing conditions. It is clearly impossible to make any firing problem seem very much like a real battle so long as the other side is not actually killing or disabling your men, but in the Evans two teams start down the range from about 1,350 yards and each fires upon the targets of the other. When an imitation fighter is hit his flesh and blood representation is pronounced dead and stops firing. The match attracts a large gallery and excites a great deal of interest.

Lieut. Col. John J. Dooley, Chief of Ordnance, Maine, was designated by General Evans to conduct the match this year. He served in a similar capacity in 1910 and 1911.

The preliminary target was scheduled for Thursday afternoon, but on account of the rain was put over until Friday. The first team to line before Colonel Dooley at about 1,350 yards from the supposed position of the enemy were U. S. Marine Corps and Oregon Team No. 2. The arrangement for number of halt distances advanced were unknown to any except the officer in charge of the pit. Oregon No. 2 won this run by downing the last marine target at the 6th halt at about 700 yards.

The second run was between U. S. Cavalry and Oregon No. 1. These Oregon men also disposed of their adversaries; the final coming at the 6th and at about the same distance.

Q. M. SERGT. STEVE PEARSON, OREG. N. G.,
Winner of Catrow Cup Match

in the run Oklahoma fought with Tennessee. Here the battle ended in favor of Oklahoma when, approximately, 600 yards from the objective. The fourth run called out Alabama and Illinois. The Southerners made way with the last of their opponents on the 6th halt at about 700 yards.

This the teams to shoot in the semi-finals: Oregon No. 1, Oregon No. 2, Oklahoma and Alabama.

These engagements were carried out Saturday afternoon under conditions practically the same as on the preceding day.

In the first run Alabama and Oregon No. 1 contended. The encounter terminated at the 5th halt, 800 yards from the point attacked in favor of Oregon No. 1.

For the second run Oregon No. 2 and Oklahoma exchanged shots. This battle proved the surprise of the match. Oklahoma disposed of all of her adversaries by the 5th halt, between 700 and 800 yards, without losing a single man during the contest.

The final run to determine first and second places was between Oklahoma and Oregon No. 1. Oklahoma proved the stronger, but it cost her six of her eight men before she put Oregon out of the battle on the 6th halt at about 600 yards.

To settle the third place, Alabama and Oregon No. 2 locked horns. Alabama lost 6 men of her 8, but disposed of her enemy at the 6th halt at about 600 yards. The match was a great success.

MIXING WITH THE MOROS.

A FRIEND in the Philippines has lately sent us an account of the lively little battles against the Moros of Jolo, in which our readers are sure to be greatly interested. Special cause for interest during the Perry meeting is furnished because Capt. George C. Shaw, formerly shooting member and successful captain of the Infantry Team, who is now a Major of Philippine Scouts, was a participant in the fighting. Shaw is a medal of honor man and a general favorite with the shooting fraternity, and officers of the Army and National Guard.

As is well known, there has been trouble with the Moros for several hundred years, long before the American occupation, and it still exists, though the end seems in sight.

Of late there has been trouble with certain Moros of Jolo over the question of surrendering their guns. Certain dattos had refused to surrender them and had intrenched themselves in strong positions. Among these dattos Amil and Sahipa were the leaders. Beginning in January, 1913, they had caused trouble attacking the troops and killing a number of men and officers. Sahipas' cotta had been attacked and burned but Sahipa had escaped. Amil had intrenched himself strongly at his home on Mt. Bagsok and refused to give up his guns.

Finally, on June 10th, 1913, an expedition was started to reduce the place. Mt. Bagsok is about 17 miles southeast of Jolo on the same island, and is a volcanic cone rising 2,100 feet, almost from the water, the top of the mountain being about 4 miles from the sea. The mountain rises gradually until about 1,000 feet of the top, when it becomes very steep, the last 100 feet being nearly, and in some places quite, perpendicular. The rim of the crater is horseshoe shaped and narrow. On this rim were several cottas. Beginning at the northeast side was Puyo Cabao, about 1,600 feet up, then Matuncup, about 400 feet higher, then bagsok cotta at the highest point of the rim. Then across the crater on the northwest side was Bud Bunga with several trenches to the north at the end of the rim.

On the north side of the crater, at an elevation of about 1,500 feet, was Pujagen Cotta, the home of Amil. A place strongly intrenched by trenches extending up the mountain, but being commanded by the higher points of Puyo Cabao, Matuncup, Bagsok Cotta and Bunga. Immediately in front of Pujagen is Languasan Hill, about the same elevation as Pujagen, but separated from it by a deep little valley about 200 yards wide and connected with Pujagen by a narrow ridge. Pujagen is the principal entrance to the crater, but Languasan Hill covered the entrance, but itself was swept by the fire of Puyo Cabao, Matuncup Bagsok Cotta, and the trenches on Bub Bunga.

The expedition was placed under orders very quietly on the night of June 10, 1913, and at midnight started from Jolo. It consisted of the following, all under the personal command of Gen. J. J. Pershing, U. S. A.:

Company M, 8th Infantry—Lieutenants Adams, Shute and Brush, 8th Infantry.

13th Company, Philippine Scouts—Capt. H. McElderry, 1st Lieut. A. J. Conroy, Philippine Scouts.

14th Company, Philippine Scouts—Capt. H. B. Parrott, 1st Lieut. C. T. Alden, Philippine Scouts.

21st Company, Philippine Scouts—Capt. H. Dickson, Lieuts. J. S. Young, S. L. Kiser, Philippine Scouts.

24th Company, Philippine Scouts—Lieuts. R. G. Craven, A. Tucker, Philippine Scouts.

29th Company, Philippine Scouts—Lieut. B. E. Brewer, Philippine Scouts.

31st Company, Philippine Scouts—Capt. P. Moylan, Lieuts. A. Cody and H. W. Cantus, Philippine Scouts.

40th Company, Philippine Scouts—1st Lieut. F. Sperbeck, Philippine Scouts; 2d Lieut. J. C. Walker, 8th Infantry, attached.

51st Company, Philippine Scouts—Capt. G. C. Charlton, Lieuts. E. H. Rackley, L. C. Mosher, Philippine Scouts.

52d Company, Philippine Scouts—Capt. T. W. Nichols, Lieut. E. J. Oliver, Philippine Scouts.

Three mountain gun detachments of 16 men each, under 1st Lieut. T. F. Van Natta, 8th Cavalry; 2d Lieut. F. G. Dillman, 8th Infantry, and 2d Lieut. C. F. McKinney, 8th Infantry.

Detachments of the Hospital Corps, under Lieutenants Chilton and Hughes, Medical Corps, and Lieutenants Hughes, Stallman and Maynard, Medical Reserve Corps.

One pack train.

One-half Troop H, 8th Cavalry—Lieut. J. T. Sayles, commanding.

The troops were sent out as follows:

The 13th and 14th Companies, Philippine Scouts, and Lieutenant Dillman's mountain gun were sent about 10 miles southeast of Jolo to attack Sahipa at his new cotta in the neighborhood of his old one.

The 24th and 31st Companies, Philippine Scouts, were sent overland to take position on the southwest side of Mt. Bagsok and prevent escape from that side of the mountain.

The Cavalry with the pack train and the pack mules of Van Natta's and McKinney's mountain guns were sent overland around the east side of Mt. Bagsok to Bun Bun, which was to be the base. All the other troops were sent by water on the "Wright," "Geary," "Jewel" and "New Orleans" to Bun Bun, about 17 miles east of Jolo. By 1 o'clock of June 11th everything was under way, and by daybreak all the troops sent by water were ashore at Bun Bun.

The base was established there with the 21st Company, Philippine Scouts, and a dressing station, under Lieutenant Hughes, with a detachment of the Hospital Corps.

Three columns of troops were at once advanced toward Bagsok, and Captain Chilton, with the 51st Company, Philippine Scouts, was sent against Matuncup and Bagsok Cotta.

Captain Nichols, with the 52d and 29th Companies, Philippine Scouts, and Van Natta's gun was sent against Puyo Cabao, and Lieutenant Adams, with Company M, 8th Infantry; 40th Company, Philippine Scouts, and McKinney's gun was sent against Languasan Hill and Pujaga. Major G. C. Shaw, Philippine Scouts, had been ordered to command the base, but on arriving at Bun Bun he was ordered to join the column against Languasan and take command. He joined the column about 9.30 that morning, as it opened fire on the mountain.

The column against Languasan reached the foot of that hill about 9.30 a. m. and was promptly fired upon by Pujagan and trenches on the north slope of Bud Bunga. The troops replied with fire from the mountain gun and pushed up the hill. The top was reached at 11 a. m., and it was found that the hill was under fire from Matuncup, Bagsok Cotta, Puyo Cabao, Pujagan and the trenches on Bunga. The troops intrenched under fire but lost 2 killed and 5 wounded as they did so. The mountain gun was brought up part of the way by hand and opened on Pujagan and Bunga. Puyo Cabao and Matuncup had been occupied by the detachments sent against them, and by night the hill was securely held from any attack.

Languasan was about 1,400 feet high, a steep bald hill, commanding the north entrance to Pujagan Valley, the Crater of Bagsok. If the hill could be held the Moros could not escape in that direction.

So the detachment there went into camp for the night just under the top of the hill, intrenching the entire camp. During the night there was considerable firing, but it is not believed that the Moros made any attempt on the camp.

The other detachments had made good progress during the day. The 52d and 29th Companies, Philippine Scouts, had driven the Moros from Puyo Cabao with shell and shrapnel and had occupied the cotta there. The 51st Company had occupied Matuncup, the second highest point on the mountain. The mountain gun had been used as long as it could be moved up, and when the mountain wall became perpendicular the men climbed the cliff, pulling themselves up by vines, and took the place. The same company tried to take Bagsok Cotta, which was about 600 yards from Matuncup and on the highest point of the mountain, but it could be approached by a very narrow ridge and by but one man at a time, and the first ten men who tried to cross the ridge were killed or wounded. So it had to be left until another time. In the afternoon of June 11th Van Natta, with his gun, joined the detachment on Languasan, shortly after, with a good shot, put the trench on Bunga out of action.

Early on the morning of June 12th the Moros opened fire again. About 8.30 the 24th and 31st Companies, Philippine Scouts, joined the detachment on Languasan. Both guns opened fire on the trenches on Pujagan and about 9.30 a. m. all the Moros were driven into one trench. The fire of both guns was concentrated on that trench and all the remaining Moros jumped from the trench, and with barongs, spears

(Continued on page 436.)

POINTED BULLET IN CANADA.

IT has been authoritatively stated that a pointed bullet will be used in the provincial and Dominion of Canada Rifle Association matches this year. It is estimated that the muzzle velocity of the bullet will be about 2,380 feet per second, as compared with 2,000 feet per second of the present bullet.

"If this be true," remarks Army and Navy Gazette, "the trajectory values will be very different, especially at the shorter ranges.

"It is not stated whether riflemen anticipating entry into the D. C. R. A. matches will have an opportunity to try out the new ammunition, but it would be only fair that they should. If the new bullet is much differing in trajectory it would be difficult, unless accurate trajectory tables are posted, to do accurate shooting at the start.

"Though the new bullet is undoubtedly an improvement on the old, there is still some distance to go before Canada reaches an equality with the United States, which claims for its national arm, the Springfield, a muzzle velocity of 2,700 feet per second."

CANADA AT BRITISH MANEUVERS.

COL. SAM HUGHES, Minister of Canadian Militia, and twenty of his officers will attend the maneuvers in England this autumn. Colonel Hughes is elaborating a scheme whereby the Canadian forces will be trained in exactly the same manner as the Imperial Army, and he intends to interest the governments of other Dominions to follow Canada's example. He has also a scheme in hand to take an entire brigade of Canadian Militia annually to England to participate in the maneuvers, and to get other Dominions to do the same.

A MEXICAN AMAZON.

THE Mexican female revolutionist, of whom so much has been heard in the past two years, and who has figured so prominently in modern moving-picture "war dramas," is not entirely a new character. Half a century of tradition is behind her.

Army and Navy Gazette, of London, is printing extracts from the Gazette of fifty years ago. Here is one, just reprinted referring to an incident arising out of the efforts of France to establish Maximilian as emperor of Mexico:

"Among the Mexican prisoners who have arrived in France is a young Indian woman, twenty-three years old, who was lieutenant-colonel of the Regiment of Zacatecas. In the space of seven years she gained all her grades at the point of the sword. When her husband was called on to serve she followed the army, and, having distinguished herself in battle, received the rank of lieutenant. Her husband was killed in the affair of Guadeloupe in 1862, and her bravery on that occasion obtained for her the rank of second in command of a regiment, at the head of which she rendered herself conspicuous in the defence of Puebla. She is most expert in the use of the sword, and her men considered her as a supernatural being. After the surrender of Puebla she was taken to Vera Cruz, and arrived at Brest on board the Rhone transport. Her order for transportation stated her rank, and gave her a right to a seat at the table of the superior officers."

NOT GOING TO EUROPE.

MAJ. GEN. LEONARD WOOD, Chief of Staff of the Army, has been obliged to decline the invitation of the Kaiser to attend the German maneuvers beginning September 3. Secretary of War Garrison, with whom General Wood is traveling in the West, requires the general's presence with him in completing the inspection tour of Army posts and garrisons.

GOVERNOR GENERAL HARRISON.

PRESIDENT WILSON'S appointment last week of Representative Francis Burton Harrison, of New York, as Governor General of the Philippines, appears to meet with general approval without regard to partisanship. Speaking in the House last Friday, Representative James R. Mann, the Republican floor leader, said:

"In behalf of this side of the House, I desire to congratulate the President and the country upon the appointment of Francis Burton Harrison to the high position of Governor of the Philippine Islands. I believe that no better selection could have been made out of the entire population of the United States, and that the action of the President is a guaranty to the country that the Philippine question will receive careful and honest consideration."

Mr. Harrison succeeds W. Cameron Forbes in the position, Mr.

Forbes having succeeded Luke Wright, who followed William H. Taft, first Governor General in the position.

Francis Burton Harrison was born December 18, 1873, in New York City. His father was private secretary to President Davis, of the Confederacy, and his family is one long known in Virginia. Mr. Harrison is an alumnus of Yale, 1895. Later he received his LL. B. degree from the New York Law School. He was admitted to the bar in 1898.

He entered the Spanish-American War as a private in Troop A, New York Volunteer Cavalry, and later became a captain and assistant adjutant general of Volunteers. He was elected to Congress from the Thirteenth district of New York for the Fifty-eighth Congress in 1902. Two years later he was the defeated candidate for lieutenant governor of New York. In 1906 he was re-elected to the Sixtieth Congress from the Sixteenth district of New York, and received two subsequent re-elections from that district, namely in 1908 and 1910. Last year he was elected from the Twentieth district of New York. He is a member of the Committee on Ways and Means and was in charge of the chemical schedule of the Underwood tariff bill in the House.

LADIES SHOOT THE SMALL BORES.

MINIATURE rifle shooting, what we term small-bore shooting, is becoming more and more popular among ladies in the British Isles. Last year the Scottish Rifle Association inaugurated a miniature rifle competition open to ladies only. In addition, it presented a handsome challenge cup which was carried off to London by Mrs. Alton.

This year Mrs. Alton did not go north to defend her title to the trophy, but a splendid contest took place among Scottish ladies, and only after a triple tie did Mrs. I. H. Watson, of the Paisley Ladies' Club, prove the winner. The conditions were three shoots of seven rounds each, unlimited entry, at 25 yards. Before the close of the competition Mrs. Watson and two other ladies had each scored three possibles. In the shoot-off Mrs. Watson, with two nines and a ten, won.

Mrs. Watson, for the second year, also has won the first prize in the season's competition of the ladies' section of the West of Scotland Rifle Club. In this each competitor fires one shot to count at 25 yards, three at 50 yards, and three at 100 yards, the highest possible score being 490. Mrs. Watson scored 470, her nearest opponents being Miss Madge White and Mrs. Dobie, with 468 each.

MONEY FOR OLYMPIC GAMES.

EARL GRAY, formerly Governor General of Canada; Lord Harris, Field Marshal Earl Roberts, Lord Strathcona, the Duke of Westminster, and Lord Rothschild, have issued an appeal to the British public to subscribe \$100,000 to enable the British to uphold the traditions of their country in the next Olympia games. They ascribe the British failure at the Stockholm Olympia last year to lack of funds properly to search out, train and prepare athletes for the contests.

In their appeal they declare it "a national duty" to do these things which heretofore have been neglected, and to be ready to send well-prepared athletes to the games in Germany in 1916.

The committee appointed to control the funds consists of J. E. K. Studd, B. J. T. Bosanquet, Theodore Cook, Sir Conan Doyle and Sir Claude MacDonald.

MEN GREATER THAN MACHINES.

IN his introduction to the fifth annual edition of his "All The World's Aircraft," F. T. Jane enforces two points, first that the possession of aeroplanes is not in itself a factor of large military importance, and secondly, that the essential requirements are a body of trained and efficient naval and military pilots, and an ability to produce a sufficient number of effective machines. The air strength of a nation in case of war resides in its efficient flying men and in its own productive capacity. While aeroplanes can be built quickly—it is said that, with the assistance of parts that many manufacturers keep in stock, a new machine has been turned out in seven days—their ordinary life is only reckoned at a few months, and the experience of the authorities has not been that they can be speedily obtained in any number. About the lighter-than-air machines, the increasing popularity of which Mr. Jane mentions, he says: "A base-less dirigible will not live long." It is for this reason that almost as much attention must be paid to the provision of suitable sheds as to that of the airships themselves.

ARMS AND THE MAN

1502 H STREET NORTHWEST, WASHINGTON, D. C.
EVERY THURSDAY

Editor

Associate Editors

FRANK J. KAHRs ASHMUN BROWN

Communications.—The Editor will be pleased to receive communications on timely topics from any authentic source. The correspondent's name and address must in all cases be given as an evidence of good faith, but will not be published if specially requested. Address all communications to ARMS AND THE MAN. Manuscript must be fully prepaid, and will not be returned unless accompanied by sufficient postage.

Entered as second-class matter, April 1, 1908, at the post office at Washington, D. C., under the Act of Congress of March 3, 1879.

That a man shall serve his country in time of war is noble, brave, and patriotic; but that a man shall properly prepare himself in time of peace to serve in war is all of these things and more. It is noble with a nobility which is real, not ideal. It is brave with a bravery which assumes in time of unemotional peace many burdens, among them that of bearing the lack of appreciation of those who do not consider military preparation or training necessary.

MEXICO.

In the fog of language that clouds the Mexican situation, some certain facts loom up so sharply that mere words will not obscure them.

What have we to do with Mexico? In the first place, we should insure the protection to our citizens in that country that one civilized nation accords to the citizens or subjects of another; the same protection that Mexico demands we shall accord to Mexicans sojourning in the United States. We have not been getting that protection for our citizens.

Secondly, the obligation is on us, under the Monroe doctrine, equally to protect the citizens and subjects of European nations, now domiciled in Mexico, since we have announced our opposition to aggressive measures on the part of those nations toward any of the countries to the south of us. We have done nothing material in the discharge of that obligation.

It must be obvious that whatever steps this country should take should be directed toward the restoration of tranquillity in the republic, and the establishment of law and order.

Mexico's whole history, and especially her history since the successful revolution against the authority of President Diaz, makes it equally obvious that only a government with a powerful and forceful character at its head may survive there and secure the peaceful condition that we desire.

During the Madero régime the one forceful character that appeared was Huerta. The vigor and success which characterized his operations against the northern rebels marked him as a born leader. He was recalled from his operations in the field. Gossip said that he was recalled by Madero through jealousy. It is a reasonable hypothesis.

By another revolution Huerta was installed as president of Mexico. The murder of Madero followed. Madero's friends charge that Huerta was responsible. The diplomatic corps in Mexico fails to support the charge.

That corps, with interests identical throughout, declaring that the purposes of peace demanded this action, recommended to their governments the recognition of the Huerta government. European governments followed the recommendation; this government refrained from so doing. Huerta could not get the credit he could have secured had the United States recognized him.

The result has been the continuation of a condition of anarchy in a large portion of Mexico. Our declination to recognize Huerta certainly has not made the lot of Americans or Europeans in Mexico any the safer or more comfortable. It is not evident that the judgment of the

Washington government was any sounder than the contrary judgment of the diplomatic corps in the city of Mexico.

Now the Washington government is demanding of Huerta that there "shall be an immediate cessation of hostilities;" that there shall be early elections for constitutional president; that Huerta shall not be a candidate, and that both sides in Mexico shall abide by the result.

These demands are either persiflage or they mean something. One may order a pair of Kilkenny cats to cease fighting, but unless one has the strength and nerve and intention to drag them apart and keep them apart the order is ridiculous.

Precisely what does the administration mean by the demands?

But, supposing that Huerta finally agrees to them, what is accomplished? Whence will come the man who will do more than Huerta has been able to do to restore peace to Mexico? Are we to have a succession of "constitutional presidents," no one of whom is strong enough to guarantee domestic tranquillity?

In its desire to get rid of Huerta this administration seems to have lost sight of the future. True statesmanship looks rather more than two moves ahead.

It cannot be said that the demands of this government on Mexico have advanced the cause of peace in that land in the slightest degree; nor can it be predicted with any degree of certainty that, in the event they are accepted by either of the contending forces there, they will be productive of peace.

Meanwhile the drift of events, not only in Mexico, but in this country as well, is not in the direction of peace. There have been administrations in this republic that preferred to control events rather than let them drift.

THE GREATEST MATCHES EVER HELD.

It is not far from the truth to say that the 1913 meeting at Perry is the greatest ever held in this country. Attendance has been larger, interests greater and scores higher than ever before.

A consideration of the causes convinces us the presence of competitors from other countries, or, better said, the discussion before the matches of the purpose of foreign teams to be present, has been the chiefest reason for attendance and interest.

Scores have risen because the rifles are better, our men know the rifle more intimately and ammunition is of improved quality.

ARMS AND THE MAN holds itself in no small measure responsible for International matches in the United States this year. In an editorial published in this paper August 24, 1911, we said in part: "It seems to us to be only reasonable and quite within the category of things possible to be accomplished, that at Camp Perry in 1913 there should be the largest shooting tournament which this country has ever witnessed. * * * As a preliminary step to securing international matches in this country for 1913, a team of rifle and pistol shots should be sent abroad next year (1912) to take part in such international shooting tournaments as may be open to our marksmen. These parties of contestants can be made missionaries to arrange a return visit of foreign contestants to us in 1913."

The teams were sent; they and others did the necessary missionary and other work, and the matches of 1913 take their place in history as the most successful ever held.

Let us improve the opportunity to make such further progress in rifle practice as the needs of our nation imperatively require.

THE RECALL IN JOLO.

It is to be observed from recent Manila dispatches that the recall, which is much advocated as a remedy for certain political ills in this country, does not command the respect, the admiration and the confidence of the influential persons in the Philippines. In fact, it is regarded as decidedly improper.

Thus we find the actions of Vernon L. Whitney, Governor of Jolo,

in resisting and defeating an attempt to recall him, heartily commended in respectable circles.

The dispatches relate that while Governor Whitney was returning from an inspection of the Scout camp at Bual Looc, two Moros attempted to apply the recall to him—with barongs. They got five effective swipes at him before the morgue wagon arrived, but no wound was dangerous. The Governor was so incensed at the action of the recallers that he killed one with a revolver in the struggle, and then took the barong away from the other and killed him, too, meanwhile dripping considerable of his own blood about the place.

This is the second attempt of the Moros to recall Governor Whitney. It appears that last June the Governor had occasion to kill a cattle thief. Thereupon a recall movement started. A brother of the deceased took a shot at the Governor at the customary elevation for shooting a Moro in the stomach. This faulty calculation of trajectory caused the bullet to hit the Governor in the leg and thus saved his digestive apparatus. What happened to the recaller is not specified in the dispatches.

All of which facts and circumstances are respectfully called to the attention of William Sulzer, either de facto or de jure, Governor of New York—take your own choice as to terms—that he may extract comfort from them in reflecting that he isn't the only Governor who is having trouble with his political opponents. It is to be hoped that his reflections will not be tinged with regret that he cannot use the simple Whitney methods in disposing of his enemies.

MIXING WITH THE MOROS.

(Continued from page 433.)

and crises in hand rushed our line. Amil and some others were killed as they left the trench, the others got down in the shelter of the deep little valley which separated Pujagan from Languasan, but came bravely on up the other side in the face of 200 guns. As they came the soldiers stood up in the trenches, and as the Moros came out of the valley they killed every one. Some of the Moros, among them Jami, one of the leaders, and his son got within 15 yards of the line, but were shot to pieces there.

Every Moro in Pujagan came in the last rush and all but one were killed. One man was found still alive, but he died the next day in spite of all the surgeon could do to save him.

This rush was a most exciting and spectacular affair, and is an illustration of the fanatical bravery of the Moro.

As the rush ended the Moros on Cotta Bagsak, about 1,000 yards away across the crater, opened fire with a high-power rifle, and Capt. T. W. Nichols, Philippine Scouts, who had come over from Puyo Cabao to warn the troops of it being there, was shot in the head by a bullet from it and instantly killed. We opened fire on the point from which the fire came with shrapnel and rifle fire, and after a short time stopped entirely any more fire from that point, but not, however, before one man from the 40th Company, Philippine Scouts, was killed.

By 10.30 this morning everything was quiet at Languasan and the detachment there did very little more work at that point. During the day the other detachments had worked up toward Bagsak Cotta, but it was very strong and it was determined to work a gun up so as to shell it. The 24th and 31st Companies, Philippine Scouts, with Van Natta's gun were sent early on the morning of the 13th to take a position on Mt. Bunga.

The 29th Company, Philippine Scouts, was left on Matuncup, and the 51st and part of the 52d Companies were sent to work up to Bagsak Cotta from the south.

The Bunga detachment worked hard all day. They found Bunga very steep with a strong cotta at the top. There were many Moros in it with few guns, but plenty of cutting weapons. The place was stormed and, in the hand-to-hand fight at the top, one man was killed and one wounded.

The dead man was almost cut in two with a barong and the man was wounded with a spear. They could not get the gun up that night, however, and the next morning, the 14th, they dragged it up in pieces and about 12.30 p. m. opened fire with it on Bagsak Cotta.

The fire with the gun kept up that day and began again early the next morning, June 15, when the infantry began its advance, covered by the fire of the gun. All day they worked up. The mountain was very steep and in most places the infantry could advance one man at a time only. About 3 o'clock in the afternoon the infantry were close in and the actual assault began. Bagsak Cotta was a series of trenches built

one above another on the side of the mountain, and the Moros were forced from one to another in the hand-to-hand fight, which lasted for two hours. The Moros used all their ammunition and then threw spears, barongs, guns, pieces of brass ware, logs and stones at the troops, but finally the place was taken with a loss of seven killed and seven wounded.

This ended the fighting on Bagsak and the movement toward the base began at once.

Every position on the mountain had been taken and very few Moros escaped. All the troops except the 51st and 52d Companies were withdrawn and the next day saw them all in Jolo. The 21st Company, Philippine Scouts, was left at the base and Company A, 8th Infantry, was sent out to make a correct map of the mountain.

The total loss of the expedition was, 15 killed and about 27 wounded. Considering the many strong positions taken, the loss was very light.

The result, however, was great. Bagsak had been considered impregnable and its fall taught the Moros that they were not safe from the Americans when the Americans made up their mind to fight them.

There were a few Moros who did not get into Bagsak on account of the suddenness of the attack, who thought that the result would have been different if they had been there. So it is probable that they will have to be rounded up. An active campaign will be started against all these, and it appears as if the end of the Jolo trouble was in sight.

Every effort is being made to have guns surrendered peaceably and the carrying of cutting weapons stopped, but vigorous measures are being taken to enforce the laws respecting weapons. Those Moros who wish to live up to the laws are being given every chance to do so, but the warlike ones are being rounded up promptly. Many guns are being surrendered peaceably and the troops are getting the others.

Since the taking of Bagsak the troops have been constantly on the move patrolling the country. So far the Moros have appeared fairly friendly except in the neighborhood of Sahipa's Cotta to the southeast of Jolo. The expedition there on June 11 was not very successful. After working three days around the cotta it was taken and destroyed, but the Moros all escaped.

A lot of Moros, possibly the same outfit, proceeded to occupy two strong cottas a few miles away, and on June 28th the 18th and 24th Companies, Philippine Scouts, under Capt. Harry King, Lieutenants Craven, Conroy and Tucker, Philippine Scouts; a mountain-gun detachment, under Lieutenant Dillman, 8th Infantry, and a demolition squad, under Lieutenant Walker, 8th Infantry, went out against these cottas. They took them after a sharp fight, in which the troops lost three killed and 13 wounded. The Moros had built very strong earthworks with bamboo fences all round. The earthworks were covered on all sides with logs and earth, so that if we got inside the cotta or on the parapet we could not get at them. They fired from the inside of the sheltered trenches, and we had to blow the trenches to pieces with the mountain gun and dynamite and the soldiers had to work their way through the tunnel-like trenches and drive the Moros out with rifle fire. It was brisk work and dangerous. Among other arms we captured 16 rifles.

It is possible that there will be one more big fight at the east end of the island, where there is a bad lot. It is hoped that in that case that will be the last big fight.

Since writing the above, there has been another fight with Sahipa at a cotta in the vicinity of the old one. On June 30 the Constabulary discovered the cotta and attacked it but ran out of ammunition. So more ammunition and the 13th and 40th Companies, Philippine Scouts, were sent out. They all took the cotta and killed Sahipa. So one more of the outlaws is gone. Our loss, 2 killed and 2 wounded.

Jacking up Florida.

J. Clifford R. Foster, the Adjutant General of Florida, by General Orders, has warned commanding officers to keep properly posted duty rosters for their commands on pain of "disciplinary action." The Chief of the Division of Militia Affairs had notified the Adjutant General that inspections under Sec. 14 of the Militia Law "reveal the fact that a number of organizations of your State have kept no records, or incomplete ones, showing participation in military training in compliance with Sec. 18 of the Militia Law." The Chief added: "This matter is again brought to your attention so that you may devote your personal attention to it, in order to prevent the withdrawal of Federal funds from any organization of your National Guard due to failure in presenting, at the next annual inspection, the records referred to above."

Mounted Orderlies Authorized.

Authority having been granted by the Secretary of War, the First and Second regiments of Infantry, Connecticut National Guard, are to organize headquarters detachments of mounted scouts and orderlies. Each regiment gets as mounted scouts one sergeant, two corporals and 12 privates; and in addition gets for regimental headquarters one trumpeter sergeant, two mounted orderlies, and six mounted orderlies for detail to battalion headquarters.

Detailed Scores Made at Camp Perry.

GOVERNOR'S CUP—FIRST STAGE—485 ENTRIES.

| No. | Name | Organization | 600 | | |
|-----|------------------|---------------------------|-----|------|-------|
| | | | Sk. | Yds. | Total |

THE GOVERNOR'S MATCH

National Match Course, won by Lieut. Harry Hawley, U. S. Infantry, with a score of 244 out of the possible 250. *US Ammunition* wins the first twenty prizes and an overwhelming majority of the entire prize list.

SURPRISE FIRE MATCH

Lieut. R. Sears, U. S. Infantry, first with 20 consecutive 5's; second prize, Priv. J. F. Loughlin, 6th Massachusetts Infantry, with 19 consecutive 5's. Both new world's records. The next thirteen were perfect scores. The balance of the twenty-five prize winners scored 49 apiece out of the possible 50, all using *US Ammunition*.

ENLISTED MEN'S TEAM MATCH

600 and 1000 yards. Won by U. S. Cavalry Team. The high man for the team, Corp. Robison, 15th U. S. Cavalry, scored 98 out of the possible 100. Every man on the team, but one, used *US Ammunition* at the long ranges and 80 out of the 120 shots fired were with *US Ammunition*. 29 of the 34 teams used *US Ammunition*.

CHAMPIONSHIP COMPANY TEAM MATCH

The winner and other four prize winning teams all used *US Ammunition*. Seventeen of the 20 teams entered used *US Ammunition*.

HERRICK TROPHY MATCH

Four of the seven prize winning teams used *US Ammunition*.

CHAMPIONSHIP REGIMENTAL TEAM MATCH

Half of the prize-winning team and nine of the prize winners used *US National Match Ammunition*.

N. R. A. MEMBERS MATCH

At 600 yards. Won by Capt. W. Dabney, U. S. Infantry, with 11 consecutive bull's-eyes on the 16-inch scoring center target. Second prize won by Capt. W. T. Spratt, 5th Georgia, with 11 consecutive bulls. Out of 74 prizes all but six were won with *US Ammunition*.

MARINE CORPS MATCH

Corp. C. B. Loring, U. S. M. C., shooting at 600 and 1000 yards, tied the winning score with a total of 195 out of a possible 200. Practically all of the 150 prizes were won with *US Ammunition*.

LEECH CUP MATCH

Second, third and fourth prize winners tied the winning score with 105 out of the possible 105, at 800, 900 and 1000 yards. The winner of second place, Capt. W. T. Spratt, 5th Georgia, made 13 consecutive bull's-eyes at 1000 yards. All of these scores and the winners of seven of the first ten prizes used *US Ammunition*.

PRESIDENT'S MATCH

Four of the first eight prize winners and an overwhelming majority of all of the prize winners used *US Ammunition*.

EVANS SERVICE SKIRMISH MATCH

US Ammunition wins every prize.

Peters AMMUNITION

Used by Victorious Team in

Championship Revolver Team Match

National Rifle Association, Camp Perry, O., Aug. 23d

The Colorado Team won first place in this, the most important Revolver Match to be shot at the Camp Perry Tournament, the score being

1007—A NEW WORLD'S RECORD

CONDITIONS: 15 Shots per man, one minute per shot, and
15 Shots per man, in strings of five shots, time
8 seconds for each string. Distance 50 yards

A real test of Ammunition Quality, resulting, as such tests so commonly do, in a victory for the **P** Brand

THE PETERS CARTRIDGE COMPANY, Cincinnati, Ohio [NEW YORK: 60-62 Warren St., T. H. Keller, Mgr.
SAN FRANCISCO: 583-585 Howard St., J. S. French, Mgr.
NEW ORLEANS: 321 Magazine St., Lee Omohundro, Mgr.

| Men lost at 4th halt----- | 1 | Men lost at 4th halt----- | 1 |
| Men lost at 5th halt----- | 0 | Men lost at 5th halt----- | 5 |
| Men lost at 6th halt----- | 4 | Men lost at 6th halt----- | 0 |

Final Standing.

| | |
|----------------------------|---------|
| 1. Oklahoma----- | \$56.00 |
| 2. Oregon, Team No. 1----- | 40.00 |
| 3. Alabama----- | 24.00 |

The winning team is awarded the "Evans Silver Cup," presented by Brigadier General Robert K. Evans, U. S. Army, Executive Officer, National Matches.

Won in 1911 by a team representing the U. S. Infantry.
 Won in 1912 by a team representing the U. S. Marine Corps.

C. A. R. Men Qualified.

The Division of Militia Affairs has issued a tabulated statement showing the enlisted men of the Coast Artillery Reserves of the Organized Militia who were reported qualified in the "rated" positions and as first and second class gunners under the provisions of General Orders No. 166, War Department, 1911, at the last annual inspections under the provisions of Sec. 14, of the Militia Law. The rated positions include gun commanders, gun pointers, plotters and observers.

In the rated positions Maine has 5 gun commanders, 2 gun pointers, 6 plotters and 4 observers. Massachusetts has 10, 11, 8 and 8, respectively. Connecticut with 14 companies has 2, 1, 2 and 1, respectively. New York 15, 11, 16 and 15, respectively. California with 12 companies has 2, 3, 3 and 6, respectively. The States of New Hampshire with 4 companies, Rhode Island with 16 companies, Maryland with 1 company, North Carolina with 6 companies, South Carolina with 1 company, Georgia with 4 companies, Texas with 1 company, Oregon with 8 companies and Washington with 5 companies have no men qualified in the rated positions.

The showing by States in first and second class gunners is as follows:

| | No. of companies | First-class Gunner. | Second-class Gunner. |
|---------------------|------------------|---------------------|----------------------|
| Maine----- | 12 | 153 | 121 |
| New Hampshire----- | 4 | — | — |
| Massachusetts----- | 12 | 48 | 111 |
| Rhode Island----- | 16 | — | 13 |
| Connecticut----- | 14 | 16 | 20 |
| New York----- | 31 | 144 | 138 |
| Maryland----- | 1 | 6 | 2 |
| North Carolina----- | 6 | — | — |
| South Carolina----- | 1 | — | — |
| Georgia----- | 4 | — | — |
| Texas----- | 1 | — | — |
| California----- | 12 | 51 | 67 |
| Oregon----- | 8 | 10 | 2 |
| Washington----- | 5 | 21 | 15 |

Program for Old Guard.

We have just received, in extremely handy form, a handsome program issued by the Old Guard of the City of New York covering the shooting of that organization at Sea Girt. This small booklet contains no advertising, but a complete list of the matches to be shot at the New Jersey range from Monday, August 25, to Friday, August 29, with conditions, prizes, etc., and a few pertinent remarks on the back page which can not be repeated too often. The cover, which is of heavy white paper, bears the seal of the Old Guard in gold, and the whole is a very neat and attractive souvenir.

A Word to the Wise.

The sweet young thing was being shown through the locomotive works.

"What is that thing?" she asked, pointing with her dainty parasol.

"That," answered the guide, "is an engine boiler."

She was an up-to-date young lady and at once became interested.

"And why do they boil engines?" she inquired again.

"To make the engine tender," politely replied the resourceful guide.

Eh, What?

An old farmer recently came into possession of a check for \$200. He finally summoned up nerve enough to go to the bank.

"What denomination?" said the teller, hastily, as the check was passed in through the window.

"Luther'n, gol darn it! But what has that got to do with it?"

He Wondered.

A veteran, talking to his great-grandson, a little lad of eight or nine years, remarked:

"Nearly a generation and a half ago my head was grazed by a bullet at the battle of Chickamauga."

The little boy looked at the old man's head thoughtfully and said:

"There isn't much grazing there now, is there, granddad?"

Borrowed a *Marlin*

Mr. T. W. Barnes was "among those present" at Canada's biggest shooting event at Hamilton last week. His double gun broke—so he borrowed a Model 28 Marlin hammerless trap gun and entered and won the Amateur Championship event, making the perfect score—50 straight—with a gun he had never before handled or fired.

Only a few weeks ago, Walter A. Welnski won the big Eastern Preliminary Handicap at Wilmington, Del., with 94x100 (tie) and 20 straight in the shoot-off, in a field of 160 entries, shooting a Model 28 Marlin hammerless trap gun, brand new from the factory and never fired before entering the Preliminary Handicap. He was the last man in the last squad and had to break the last target to win.

Did you ever hear of anyone breaking in a brand new gun by winning an Interstate Handicap?—or winning a National Cham-

And won the Amateur Championship of Canada

pionship with a perfect score from a gun which he had never previously fired?

You should know these Marlin hammerless guns—the best "natural pointers"—the best-shooting guns ever made. **You can improve your scores with a Marlin;** write us today for free catalog. Do it now!

The Marlin Firearms Co.
41 Willow St., New Haven, Conn.

however, and prove good practice for the enthusiasts. The attendance is larger each week owing to the cooler weather and the return of members from vacations. Without doubt the valuable trophies, which are to be put up in September, will greatly increase the interest and create keener competition.

Scores made (25 targets) were as follows:

NEWS OF THE TRADE.

The amateur championship of Western New York was won by Harry Harrison, of Rochester, shooting Remington-UMC speed shells. Harrison captured the title with 50 straight, and 24 out of 25 in the shoot-off.

As showing the strength of the gale in which John W. Hessian, of Bridgeport, Conn., won the Marine Corps Match at Camp Perry on August 20, equaling the world's record with 195 out of 200, shooting Remington-UMC ammunition, experts said that without his wind gauge set, it would have been necessary for Hessian to have aimed 23 feet to the target's side in order to get into the bull's-eye.

John R. Livingston, of Springfield, who won the Alabama State championship with 97 out of 100, shooting Remington-UMC speed shells, with an even better average, captured high over all for the two days' program, using the same ammunition to break 390 out of 400.

John Tansil, of Paragould, Ark., broke 372 out of 400 with a Remington pump gun at the recent two days' tourney of the Little Rock (Ark.) Gun Club and captured high amateur average.

A merchandise shoot on August 15 at Mankota, Minn., ended with Frank Langes, of the

home town, who shot Remington auto-loading shotgun and Nitro Club speed shells, leading the amateurs with a score of 49 out of 50.

Bert Skinner, of Cedar Springs, Mich., was high over all, 142 out of 150, shooting a Remington auto-loading shotgun and Nitro Club speed shells at the August 12 meet of the Cadillac (Mich.) Gun Club.

L. M. Fetherstone, of Chicago, was high over all at his city's gun club's meet of August 16, shooting a Remington pump gun and Nitro Club speed shells for a score of 92 out of 100.

With 58 shooters present at the Western Connecticut Trap Shooters' League Tournament at Long Hill (Conn.) Hillside Gun Club, E. W. Mumford, of Hartford, shooting a Remington pump gun and Nitro Club speed shells, tied for high amateur average with 144 out of 150.

Everett Brown, of Rensselaer, Ind., was high gun at the Monon Gun Club shoot of August 15, with Remington-UMC speed shells, scoring 146 out of 150.

At the Field Day Shoot of the Portland Gun Club, S. W. Putnam, of Fitchburg, Mass., shooting The Black Shells in a high gale of wind, scored 138 out of 150, thus making him high man over all professionals and amateurs.

G. H. Darton, shooting The Black Shells, was second, breaking 134. G. M. Wheeler was high professional with 132, and O. R. Dickey second high professional with 131.

Out of 25 shooters in the field, 15 used The Black Shells.

Ye Oak Meadow Gun Club, of Sandusky, Ohio, gave a tournament at Cedar Point Aug. 14th, immediately following the Elks' Shoot. Mr. Carl F. Moore, shooting Peters shells, tied for high general average, 149 out of 150, with a straight run of 147.

Chas. A. Young, United States professional champion, is justifying his title at every shoot he attends. His latest score was 295 out of 300 at the tournament given at Cedar Point by the Ohio Elks. Including this tournament and the Sandusky tournament following, Mr. Young had a run of 160 straight, and shot Peters high gun shells.

High general average at Pattenburg, N. J., Aug. 12th, was won by Mr. Neaf Apgar, with Peters shells, 94 out of 100.

Among the averages won with Peters "Steel where steel belongs" shells, recently, were the following:

Seidlers Beach, N. J., Aug. 16th, high general average, Mr. Neaf Apgar, 140 out of 150.

Little Rock, Ark., Aug. 12th and 13th, second general average, Mr. R. L. Bennett, 373 out of 400.

The 1913
Navy and Marine Corps Rifle Teams

Will Be Fitted With

EDMONDS
Shooting
Glasses

The 1913 Model of the Edmonds Shooting Glass is the result of years of experiment and years of co-operation with the ARMY, NAVY, and MARINE Corps Rifle Teams—and that result is Shooting Glass efficiency in the highest form:

The men who make these teams know that with the Edmonds Shooting Glass they won't "blow up." They know they will make consistent scores.

You would not use an inferior grade of ammunition in a big shoot—the odds would all be against you. Then don't fool with a poor glass that is a positive menace to a good score.

Shoot with the Glass of Efficiency: The 1913 Model of the Edmonds Shooting Glass.
Address Shooting Glass Department.

REMINGTON-UMC CARTRIDGES

Still Breaking World's Records

President's Match

20 Shots Skirmish, 10 Shots Surprise, 10 Shots 600 yards, 15 Shots 1000 yards

The most coveted match in this country, won by Capt. Wm. H. Clopton, Jr., U. S. Cavalry, using **Remington-UMC** Cartridges, making a **new world's record** for the course of 266 x 275.

C. B. Long, Massachusetts, second, 260, using **Remington-UMC** and one other make.

J. W. Hessian, Connecticut, seventh, 256, using **Remington-UMC** Cartridges.

E. C. Crossman, California, ninth, 254, using **Remington-UMC** Cartridges.

Four out of the first nine prizes won by Remington-UMC

Marine Corps Cup Match

20 Shots at 600 and 1000 yards

This match was shot in a gale of wind where accuracy and reliability in ammunition were essential. Won by Mr. John W. Hessian with 195 x 200 tying the existing **world's record**, using **Remington-UMC** Cartridges.

Leech Cup Match

7 Shots at 800, 900 and 1000 yards

Sergt. C. R. Robinson, U. S. Cavalry, scored the possible at all three ranges, 105 x 105, using **Remington-UMC** Cartridges.

Herrick Trophy Match

A new world's record for an individual score in this match was established by Capt. Stuart W. Wise, M. V. M., who made the marvelous score of 223 x 225. 800 yards, 75; 900 yards, 75; 1000 yards, 73. Only 1 shot out of the bull's-eye in 49 shots, including sighters, using **Remington-UMC** 180 grain Cartridges.

Enlisted Men's Team Match

A new world's record made by the U. S. Cavalry Team, three men using **Remington-UMC** Cartridges.

In the Herrick Trophy Match the Massachusetts State Team finished second and the U. S. Cavalry Team No. 2 fourth, both using **Remington-UMC** Cartridges.

The shooters have been making some tests of their own and the results of their conclusions are reflected in the above results.

Shoot the dependable—reliable—record-breaking Remington-UMC Cartridges and get what your hold calls for.
